The Show

Soul Wood is a tiny show where the music brings the audience in the **magic world of Marionettes**.

Through the winding movements of a Indian trapeze artist we enter in a **poetical atmosphere** in which we discover a secret locked in a treasure chest that suddenly appears. We then come to witness the curious **love story between a spring and a corkscrew**.

Uncle Tati is next, he's the main character of a small world which, through the music, soap bubbles and the meeting with a bee and a butterfly, tell us about the **eternal young soul** of a dreamer.

Finally, it is time for "**the Mother In-Law**", Cirmola: a captivating and whimsical "lady" (a marionette of an impressive complexity), in the privacy of her bath, performs all her **vocal and rhythmic virtuositities**, arousing much fun for a wider audience.
